Company name, address, email address and contact person:

Entry Criteria

Entries must be submitted by July 10, 2023, at 11:59 PM EDT.

All entries must comply with the official program rules, as follows:

- Product submitted must be available in the market for the first time after Jan. 1, 2022 or must be projected to be available in the market by Sep. 7, 2023.
- Technology Designer LLC in its sole discretion, may determine if a product is not eligible for consideration.
- A product must be submitted into the relevant product category.
- A product may be submitted into a maximum of three (3) product categories and is eligible to win in each category entered, provided it meets the requirements for the product category and a separate application fee is paid for each category submitted.
- A maximum of three (3) different product images may accompany each entry. Images must be submitted in a .jpg format and be less than 3 MB. If entering an intangible product, an applicant may submit screenshots or diagrams. All images must be submitted via the online application.
- Applicant representative must be 18 years of age or older at the time of entry and authorized to submit the product on behalf of the applicant.

Save the PDF form and submit with images to: eric@TechnologyDesigner.com

You may submit up to three photos/images, up to 3 MB per photo/image.

Evaluation Criteria

All entries are reviewed and scored based on the following criteria:

- Engineering, technology and functionality
- Aesthetic and design, especially when prominently displayed in the home
- What makes the product unique and innovative
- The user interface and user experience. How does the consumer live with the product or design?

Applicants in all product categories will be notified via email by mid-August of their status. Those attending CEDIA EXPO 2023 may be asked to participate in our video interview campaign.

All award designations by the judges are final.

Technology Designer LLC does not test or endorse the Performance Home Awards award-winning products.

Describe the overall design objectives and how the product integrates into the residence:
